Performant Magento Extensions

## Preface:

Store Admin can Sell Sample Products with custom price added from admin. So customers can buy a sample product.

Perfomant Magento Extensions

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended)

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management.

**Step 4:** Enter the following at the command line: `php bin/magento setup:upgrade`

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants -> Sample product, the module will be displayed in the admin panel.

## **Option 2:** Magento 2 install extension manually

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System -> Cache Management Edit app/etc/config.php file and add one line code:

```
'Mageants_SampleProduct' => 1
```

**Step 4:** Disable the cache under System -> Cache Management

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores -> Configuration -> Mageants -> Sample product, the module will be displayed in the admin panel.

## Backend Example:

After Installation of Extension login to magento admin panel to set configuration of the extension.

## Extension Configuration:

To configure general extension settings. Please go to

Store → Configuration → MageAnts Extensions → Sample Product and expand the Settings section.

Once you have done Configuration setting, then go to manage product sections and Edit any Product for which you want to set sam-ple Product.

## Use this path for Add Sample Product:

Admin-> Catalog-> Products -> Select any product -> Edit -> Sample Product.

Please refer below image for Sample Product setting.

## Frontend Example:

Below are some screen shot of Extension Functionality on Frontend.

### Product Details page:

The Sample Product module is enabled, then show order sample button in product listing & the details page so customers can easily add sample product on shopping card.

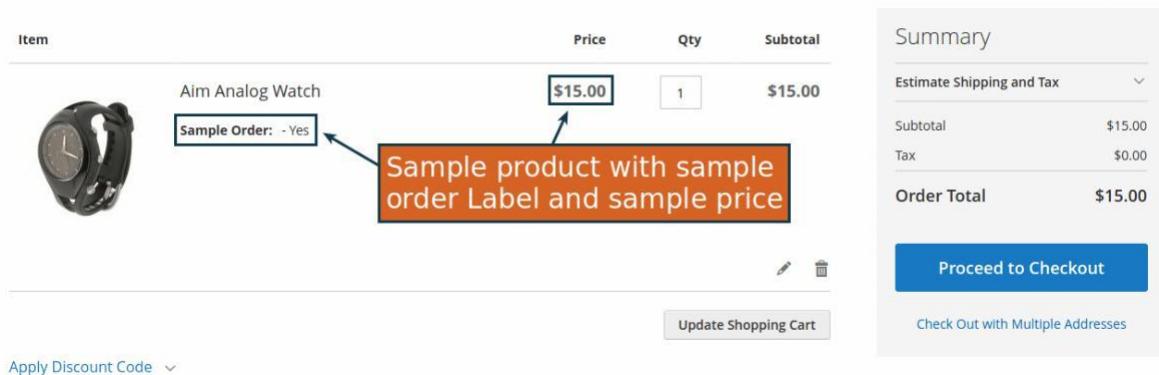

This screenshot shows the product details page for an 'Aim Analog Watch'. At the top, there's a navigation bar with links for 'What's New', 'Women', 'Men', 'Gear', 'Training', and 'Sale'. Below the navigation, the breadcrumb path shows 'Home > Aim Analog Watch'. The main content features a large image of the watch, its price (\$45.00), and its availability ('IN STOCK'). There are buttons for 'Add to Cart' and 'Order Sample'. A red callout box highlights the 'Order Sample' button with the text 'Order sample button for add sample product to cart'. At the bottom, there are links for 'ADD TO WISHLIST', 'ADD TO COMPARE', and 'EMAIL'.

This screenshot shows the product details page for a 'Beaumont Summit Kit'. The layout is similar to the first screenshot, with a navigation bar, breadcrumb path ('Home > Men > Tops > Jackets > Beaumont Summit Kit'), and a large product image. The product has a price of \$42.00 and is available ('IN STOCK'). It features dropdown menus for 'Size' (S selected) and 'Color' (Red selected). Buttons for 'Add to Cart' and 'Order Sample' are present. A red callout box highlights the 'Order Sample' button with the text 'Order sample button for add configurable product to cart'. At the bottom, there are links for 'ADD TO WISHLIST', 'ADD TO COMPARE', 'EMAIL', and a 'Extension Chat Support' button.

## Shopping Cart Page:

Sample Products are highlighted with "Sample order: Yes" to differentiate from normal products. Also the QTY is fixed to 1. User not allowed to change the QTY of sample Product.

### Shopping Cart

The screenshot shows a shopping cart interface. On the left, there's a list of items with columns for Item, Price, Qty, and Subtotal. A single item is listed: "Aim Analog Watch" with a price of \$15.00 and a quantity of 1. To the right is a "Summary" section with a table showing Subtotal (\$15.00), Tax (\$0.00), and Order Total (\$15.00). At the bottom are buttons for "Proceed to Checkout" and "Check Out with Multiple Addresses".

Item

Item	Price	Qty	Subtotal
Aim Analog Watch	\$15.00	1	\$15.00

Summary

Estimate Shipping and Tax	
Subtotal	\$15.00
Tax	\$0.00
Order Total	\$15.00

Proceed to Checkout

Check Out with Multiple Addresses

Sample Order: - Yes
